## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments filed on March 11, 2004 have been fully considered but they are not persuasive.

In response to applicant's argument that U.S. Pat. No. 6,678,510 is not prior art, "since it has the same filing date as the application (5 Feb. 2001)", examiner would like to draw Applicant's attention to the fact that the grounds for the non-statutory patenting are: (1) to prevent the unjustified or improper timewise extension of the "right to exclude" granted by patent and (2) **to prevent possible harrassment by multiple assignees'** and as such while the 6,678,510 patent may not be prior art due to the filing date of the 6,678,510 patent being the same as that of the instant application, examiner maintains that the double patenting rejection is justified in that it is to prevent possible harassment by multiple assignees and as such the 6,678,510 patent is prior art.

In view of the above the non-statutory double patenting rejection is proper and maintained as repeated below. This rejection is made FINAL.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

Art Unit: 2686

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-16 of U.S. Patent No. 6,678,510. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations of the claims of the instant application are broad enough to be encompassed by the claims of the patent and as such it would have been obvious to one of ordinary skill in the art to use the teaching of the implement the claims of the instant application for the benefit of ensuring an accurate and stable frequency reference for time synchronization.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
